Latin American Residue Mitigation through the Promotion of Biopesticides for Enhancement of Trade Opportunities

The aim of this PPG is to prepare a project proposal to develop and implement a coordinated regional approach on biopesticides in the Latin American region, which would support the inclusion of biopesticides as part of Integrated Pest Management (IPM) programmes. This PPG complements STDF’s work on biopesticides in Africa and Asia.

STDF/PPG/753

Status
On-going

Start Date
01/04/2021

Project Value (US$)
$32,928

STDF Contribution (US$)
$32,928
