

STDF LOGFRAME

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
Safe Trade Facilitated	x markets accessed	Quantitative and qualitative data on the number of markets accessed; Content and data analysis of project documents (end-of-project reports, evaluations, etc.) to identify new markets accessed. Self-assessment survey of PGs/PPGs; External evaluation	End of project	1	Stable exchange rates, no significant downturn in export price Exporters are able to meet buyers' demands (quantity, price) promised under contract No change in trade costs and risks	
	# of SPS non-compliance alerts/notifications	Quantitative and qualitative data on the number of markets accessed; Content and data analysis of project documents (end-of-project reports, evaluations, etc.). Publicly-available datasets such as EU RASFF database; Self-assessment survey of PGs/PPGs, External evaluation	End of project	5	Beneficiaries (public and private sector) in countries supported by STDF have ongoing support and resources needed to reap the medium/longer-term benefits from capacity development.	

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
	Evidence of market access and exports/imports directly facilitated through STDF support, with particular attention to climate change, environment, gender and inclusion	Quantitative and qualitative data on the number of markets accessed; Content and data analysis of project documents (end-of-project reports, evaluations, etc.). Self-assessment survey of PGs/PPGs; External evaluation	End of project	4	Time taken to develop new markets and see increase in exports Access to other inputs (e.g., finance) needed to access markets	Outbreak of pest, disease, health issue that limits market access
Programme Goal: Increased and sustainable SPS capacity in developing countries	# of STDF initiatives and PPGs/PGs contributing to changes in SPS legislation, regulation, policies, strategies, structures and/or processes, including attention to cross-cutting issues (climate change, environment, gender, inclusion)	Self-assessment survey of PGs/PPGs	Annual	7	STDF initiatives are relevant to country needs, based on demand and developed in alignment with principles of SPS Agreement and international (Codex, OIE, IPPC) standards	
	Evidence of improved implementation and/or enforcement of food safety, animal and/or plant health measures for trade, with attention to climate change, environment, gender and inclusion	Related quantitative and qualitative data gathered via interviews or administrative data of SPS agencies. Reports of capacity evaluation tools. Reports of WBG "Enabling the business of agriculture" (https://eba.worldbank.org/), UNIDO Trade Standards Compliance Report and online tool on rejection data, etc.	Bi-annual	9	Countries align their national regulations with international (Codex, IPPC, OIE) standards	

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
Outcome 1: More synergies and collaboration driving catalytic SPS improvements	Value (US\$) of new investments leveraged	Donor budget data on SPS-related support (with credible link to earlier STDF support)	Annual	US\$34.09M	Funding sources continue to be available	
	#, type of collaborative networks, relationships, initiatives at global, regional and/or national level that support the delivery of change in SPS systems, including attention to partnerships addressing climate change, environment, gender and inclusion	Network analysis in STDF WG survey	Annual	18	Partners, donors and other members continue to engage actively in STDF	Loss of interest in STDF
	Evidence of adaptation, replication, scaling of STDF approaches	Quantitative and qualitative data on replication, adaptation and scaling of STDF approaches Self-assessment survey of PGs/PPGs	Annual	4	STDF approaches reach target beneficiaries / STDF members and others share information on use of STDF approaches / STDF maintains and strengthens its network of developing country experts	Political or economic instability in country or region
	Evidence of the coordination and/or alignment of SPS capacity development interventions by WG members	Quantitative and qualitative data on coordination and alignment by SPS interventions. STDF WG Survey	Annual	1	STDF members see value in collaboration and are able to allocate time and resources for this	

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
Outcome 2: Greater access to, and use of, good practices and knowledge products at global, regional and national level	# of people reached (disaggregated by women/men and geography/region) with STDF good practices, knowledge products	Estimations on the overall reach of STDF support	Annual	5427	Good practice and knowledge relevant and locally grounded / STDF good practices and knowledge products adequately take into account gender analysis and reach women, as well as men	
	% of people reached (disaggregated by women/men and geography/region) reporting minimum satisfaction threshold with STDF good practices and knowledge products	Self-assessment survey of PGs/PPGs STDF WG Survey	Annual	NA	Capacity development providers and beneficiaries reached with STDF approaches are willing to consider and use new approaches	
	# of downloads of different types of knowledge products from website, disaggregated by geography	STDF website	Annual	15,410	Target audience aware of and able to access website / STDF members share links via their networks	
	Evidence of uptake and application of good practices and knowledge products produced by STDF to inform and support SPS capacity development led by global / regional / national bodies	Quantitative and qualitative evidence, including from training evaluations, e-survey on website on relevance and utility of STDF practices and knowledge products	Annual	4	Good practice and knowledge relevant and locally grounded / Capacity development providers and beneficiaries willing to consider and use new approaches	

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
Output: STDF Global Platform - Dialogue and exchange among WG Members and with other relevant organizations	# and type of STDF meetings/year	Secretariat administrative records, meeting summaries, news items after meetings, Excel database/n-drive (future MEL tool)	Annual	72	Ongoing interest and commitment of STDF members to engage actively during and between meetings	
	# of participants (quantity) in online or physical STDF events, disaggregated by location, gender and type of participants	Participant lists, STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	5415		
Output: STDF knowledge work, publications, good practice briefings, films, etc. produced	# and type of STDF knowledge products completed/published	STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	9		
	# knowledge products that address climate change, environment, inclusion or gender equality	STDF administrative records, n-drive (future MEL tool)	Annual	5	WG members and STDF Secretariat have interest, knowledge and resources to promote gender mainstreaming in knowledge work	

Result	Programme (STDF) level indicators	Data source	Frequency	2021 Results	Assumptions	Risks
Output: SPS assessments and feasibility studies conducted and project proposals formulated under STDF PPGs	# PPGs approved for STDF funding	STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	9		
	# PPG completed	STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	NA		
	% of PPGs meeting minimum STDF assessment threshold	Administrative records of PPG implementor, STDF	Annual	NA		
Output: Innovative and collaborative SPS capacity development projects implemented	# PGs approved for STDF funding	STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	4		
	# PGs completed	STDF administrative records, Excel database/n-drive (future MEL tool)	Annual	1		
	% of PGs meeting minimum STDF assessment threshold	Administrative records of PG implementing organization, STDF	Annual	100%
