PARTNERSHIP PLATFORM UNDER THE vTPA PILOTS

Goals of the Partnership Platform:

- Mobilise partners and coordinate their engagement;
- Discuss project progress, activities, achievements, lessons learned and challenges in the pilot projects;
- Disseminate best practices;
- Promote collaboration among members to strengthen the PPP nature under the pilot initiatives.

Expected partners

- Competent authorities
- vTPA owners
- Food safety training service providers & certification bodies
- Exporters & International Food Business operating in the countries
- Competent authorities from developed countries

CONCLUSION

Important issues for discussion:

- Who can be considered as private sector / which level?
- What is the rule of the game to partner with the private sector?
- What type of business model should be followed? Is it sustainable?
- Are existing PPP platforms living up to expectations? What's needed to leverage more resources from the Public and Private Sector to improve food safety capacity?
