

NADIA MOREIRA

COORDINATOR

NATIONAL AQUATIC ANIMAL HEALTH PROGRAMME, MINISTRY OF AGRICULTURE, LIVESTOCK AND FOOD, GUATEMALA

Ms. Nadia Moreira has coordinated Guatemala's National Aquatic Animal Health Programme for over 10 years. She is in charge of monitoring diseases which need to be notified to the OIE, providing technical support and advice for the import of aquatic animal products, and ensuring that production centres and the transport of living organisms at national level operate in accordance with the mission, objectives and policies of the National Aquatic Animal Health Programme. She also conducts training programmes to strengthen capacity in the area of animal health in the country. Ms. Moreira holds degrees in aquaculture, public health and epidemiology.
